

To all my wonderful patients,

While I am excited about the opportunities that await me, it is with sadness that I must say goodbye. After working two years at Willamette Valley Endocrinology, I have accepted a position closer to home that aligns with my passion in helping people manage their diabetes. My last day in the clinic will be July 15th. I feel incredibly thankful to have worked with such amazing coworkers and patients. In what has been a challenging year, my patients have taught me strength, resilience, patience and kindness. Your stories and your journeys will always be close to my heart.

All the best,

JesAnne Tageson-Ramirez, PA-C
